**RE: UT Lease #69477: Block 9, University Lands Survey, Reagan County, Texas:  
Section 4: NE/4**

**IMPORTANT**

This office is in receipt of your amended production reports relative to the subject lease evidencing production on same for the months of April through July, 2008. In addition, the well test witnessed by Dave Campbell of our office evidenced that the Chevron University "4" well No. 1 produced 2 barrels of oil and 3.65 MCF of gas. Upon review of the facts regarding said lease, we have determined that this lease did not terminate as you were originally notified on July 31, 2008. The termination endorsement has been removed from the official records of this lease and it has been restored to producing status.

**Subject:** FW: UT Lease 69477

Georgia,

This is the Chevron lease that their termination was pending a well test. They had amended their April - July reports to us on 9/22/08, but we requested a well test to prove their ability to produce. Dave witnessed a test that showed production (see below), therefore the termination will need to be rescinded.

Thanks,

**Cindy K. Brooks**

Cindy,

On Tuesday and Wednesday of last week (November 11 & 12), I met with the pumper and witnessed a well test on the Chevron University "4" Well No. 1.

In the 24 hour period, the well produced 2 barrels of oil and 3.65 MCF of gas.

Please let me know if you need any other information on this.

Dave Campbell

Chevron - operated

Dave,

I spoke with Todd Meade about that lease they were to have set up a well test on. He had forwarded my email to another guy who was to have taken care of that. Obviously he didn't. Anyway, Todd will follow up on Monday and get things moving. They have reported zero production to us again, although I'm certain it's a reporting issue not a production issue, because the RRC shows continual production. The lady who reports to us has told us if they don't have sales and therefore no money owing, she'll report a zero and then worry about amending later. So we know our reports are suspect. Anyway, he acted like he would get things moving and ask that I call on Monday if we've not heard back from them.

Thanks,
